

As part of our volunteer recruitment and screening process, you may be asked to provide a Selfie ID. A selfie holding your ID allows us to quickly and securely confirm your identity without needing an in-person check. Verifying that the person registering matches the ID they provide helps prevent identity fraud and ensures we meet security requirements.

Your Selfie ID will be deleted from our records after 30 days. Visit [The Smith Family's Volunteer Privacy Policy and Data Collection Statement](#) for further information on how we use and manage your personal information.

How to Take a Selfie ID

1. Hold Your ID Document Clearly

- Use one hand to hold your ID card or passport next to your face.
- Make sure the ID is fully visible and not covering any part of your head or shoulders.
- The text and photo on the ID should be readable in the picture.

2. Position Yourself Properly

- Stand or sit in a well-lit area with good lighting on your face and the ID.
- Avoid shadows or glare on the ID or your face.

3. Frame the Photo Correctly

- Your face and the ID should both be in the frame.
- Keep the camera at eye level for a straight-on shot.
- Do not tilt the ID or the camera.

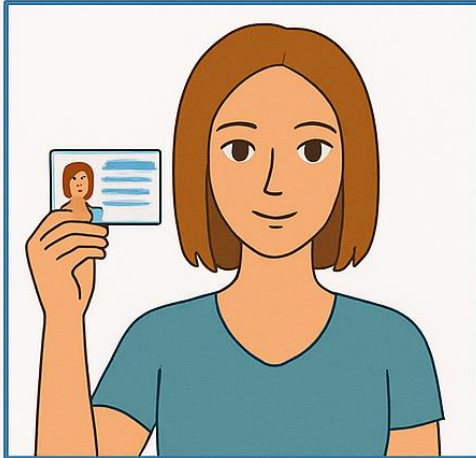

4. Background

- Use a plain background if possible (e.g. a light-coloured wall).
- Avoid busy or distracting backgrounds.

5. Take the Photo

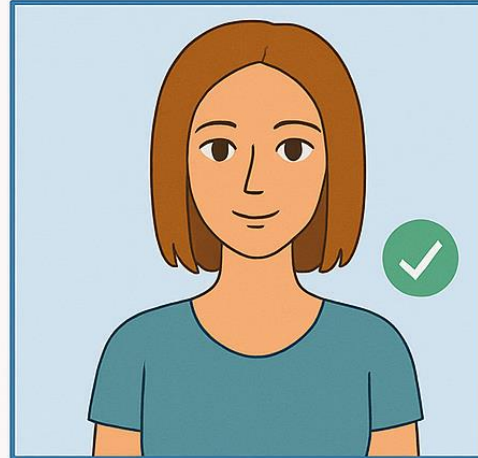

- Ensure the image is clear and not blurry.
- Double-check that all details on the ID are visible and legible.

HOW TO TAKE A SELFIE ID

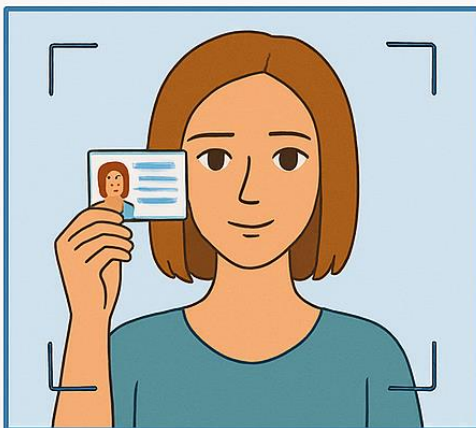

1. HOLD YOUR ID DOCUMENT CLEARLY
